

Assets Under Management: \$338.3 million
Total Firm Equity Assets: \$8.2 billion
Inception of the Portfolio: 1/1/02

INVESTMENT PHILOSOPHY

Our Small Cap Equity philosophy is founded on the belief that excess returns are achieved by investing in growing companies selling at relatively inexpensive multiples of earnings. We seek to identify companies that have historically generated, or are positioned to generate, superior return on investment (ROI). These companies must possess a sustainable competitive advantage or an identifiable catalyst for earnings growth.

STRATEGY DESCRIPTION

Our Small Cap Equity portfolio utilizes a core investment approach and consists of companies with a market capitalization that does not typically exceed the largest market capitalization company in the Russell 2000® Index.

Segall Bryant & Hamill is a Registered Investment Adviser, established in 1994. SBH provides fee-based management of fixed income and equity portfolios for institutional clients and high net worth individuals. The Small Cap Equity composite was created in January, 2002. The Small Cap Equity composite is an equity strategy consisting of companies with a market capitalization that typically does not exceed the largest market capitalization company in the Russell 2000® Index. Accordingly, the composite is benchmarked against the Russell 2000® Index. The Russell 2000® Index is a subset of the Russell 3000® Index and measures the performance of the 2000 smallest companies. These companies generally have a weighted average market value of \$2.3 billion. The Small Cap Equity composite is comprised of all fee paying, discretionary accounts managed to this investment approach which have assets greater than \$1 million and one month of returns. Accounts falling below the \$1 million threshold are not eligible for inclusion in the composite. In addition, accounts that have a significant cash flow, defined as 25% of the market value, will be removed from the composite until the next reconciliation and calculation period. Gross results are shown net of trading costs and include the reinvestment of all dividends and interest. Net results are shown net of management fees as well as trading costs and include the reinvestment of all dividends and interest. Net results reflect actual fees paid. The current fee schedule applicable to the Small Cap Equity accounts is 1% on all amounts. Actual fees will vary. All information is based on US dollar values. Returns are calculated on a capitalization and time weighted basis and linked quarterly. Dispersion of returns is measured by an equal weighted standard deviation of all the accounts in the composite for a full year period. Neither the composite nor the benchmark returns reflect the withholding of any taxes for ordinary income or capital gains. A complete list and description of the firm's composites, as well as additional information regarding policies for valuing portfolios, calculating returns and preparing compliant presentations, is available upon request from SBH. Performance information shown prior to 2002 is supplemental. Revised April 2018.
